

## **POLICY RE STUDENT DUES**

The following motion was approved at the November, 2014 Council meeting:

**".....THAT effective 2015, the MAA offer complimentary memberships to all students who are actively enrolled in the graduate program in architecture at the University of Manitoba; with membership requiring the submission of an application for student membership in the initial year and submission of a written confirmation thereafter. CARRIED"**

In 2015, the MAA Council agreed that eligibility for student membership at no charge should be extended to students actively enrolled in the architecture stream of the Environmental Design Program (final two years) as well.

Applicants must also provide some form of satisfactory evidence of their enrollment in the U of M program, in order to have student dues waived.
