

PATTISON
MGM

ARCHITECTURAL
SERVICES LTD

Architect

Commercial Buildings

Since 1954, **Pattison MGM Architectural Services Ltd.** has earned the reputation of quality and innovative design services. Notable projects include the Royal Saskatchewan Museum, SaskTel Head Office Building and Greenhouse Gas Technology Centre at the University of Regina.

As part of the firm's succession plan, they have an exciting opportunity for a talented Architect to join their management team and partnership in Regina, Saskatchewan. Enjoy an exceptional quality of life, a progressive, vibrant economy and province that is currently one of Canada's largest construction growth sectors in commercial building projects!

As a Registered Architect, your leadership and communications skills, supported by up to 10 years licensed architectural experience, will be instrumental in building client relationships and meeting their building needs from conceptual design to project completion.

As the selected Architect, you will receive an attractive senior level remuneration package including profit sharing, health plan, 4 weeks vacation and company vehicle. Your positive performance and contribution will translate to rapid career growth and an early partnership opportunity.
