Construction
Association

BUILDING MANITOBA SINCE 1904

Technical Bulletin

Prepared jointly by the Manitoba Association of Architects
and the Winnipeg Construction Association,
and intended as guidelines to increase awareness of
recommended industry practices.

Technical Bulletin #2

April 16, 1964 - Original, Final Revision Issued: December 24, 2001

Subject: Standard Contract Forms

Members of the Royal Architectural Institute of Canada and the Canadian Construction Association have spent a great deal of time and effort over a period of years in developing mutually acceptable standard contract forms for use in the construction industry right across Canada. These forms present standards that are known and readily understood by the profession and the people in the industry.

The joint MAA/WCA Committee has had their recommendations approved by the Council of the MAA and the Executive of the Winnipeg Construction Association that only current issues of original version format or sealed electronic versions of Canadian Construction Documents Committee and Canadian Construction Association Standard Contract forms should be used in Manitoba and general contractors should expect to sign only Standard Forms. Contractors in Manitoba are strongly encouraged to use standard construction documents.
