

INDIGENOUS HOUSING CANADA 2017

— IDEAS COMPETITION —
FOR REMOTE ACCESS HOUSING

CALL FOR PROPOSALS

COMPETITION FORMAT

Three teams will be selected as winners of the INDIGENOUS HOUSING COMPETITION.

DEADLINE FOR SUBMISSION

Tuesday, November 14, 2017, 2:00pmCST

For further information see awb-winnipeg.com

PURPOSE

The purpose of this competition is to raise awareness of Indigenous Housing in Canada and improve opportunities available to design, deliver and maintain housing for remote access Indigenous Canadians.

BACKGROUND

There are over 600 Indigenous Communities in Canada with over 60 ethnic groups located in diverse landscapes, many with remote access. Current housing is provided by Indigenous Communities or with funding from Canada Mortgage and Housing Corporation and Indigenous and Northern Affairs Canada. Housing demand can exceed supply causing overcrowding.

LOCATION

The location may be any remote access Indigenous Community in Canada not served by year-round all-weather roads. Transportation to communities is currently limited to air, sea lift or temporary winter road during February and March. Winter road width restriction at bridges is 4.9 metres.

DESIGN PORTALS

The design may be focused on one aspect of housing or comprehensive in its approach by addressing one or up to six design portals and optional keywords identified below:

VISION – Overall objective, processes how it will be achieved

PLACE – Response to climate, bioregion, geology, history, development

SUSTAINABILITY – Use of local materials, labour and energy

COMMUNITY – Community, culture and family

GROWTH – Flexibility to adapt for or accommodate growth

FUNDING - Alternative funding arrangements, partnerships, volunteerism, owner participation

SUBMISSION IDENTIFICATION AND EVALUATION

Submissions should identify their documents by a four-digit Submission Identifier comprised of two numbers and two alpha letters in any order. Submissions will be identified by Submission Identifier only for review. The jury will review all projects for the quality and depth of their proposal based on Design Portals identified. Ten projects will be selected for detailed review. The ten selected projects will undergo further review and ranked in order. The jury will deliberate as a group to declare winners. Winning teams will only be identified by name to jury members after final winners have been determined.

WISDOM OF MANY VOICES

The jury will be selected to represent a broad range of viewpoints and expertise. Most jury members are Indigenous. Winning Teams will be notified and asked to present their design at designated media events.

ELIGIBILITY

This call for entries is open to designers and non-designers. Multi-disciplinary teams are encouraged.
