

ARCHITECTS / ARCHITECTURAL INTERNS / ARCHITECTURAL TECHNOLOGISTS

Date: July 2, 2026
Location: Winnipeg MB
Position: Full-time & Immediate

SUMMARY

Acht Architecture Inc. is an emerging professional consulting firm Located in Winnipeg, Manitoba. Through a highly collaborative and service-driven approach, the interdisciplinary practice is grounded in the belief that design excellence is both innovative and deeply meaningful. Acht Architecture Inc. is interested in exploring an architecture that is thoughtful and transformative with an emphasis on craft, materiality, and integrity.

Acht Architecture Inc. is seeking qualified Architects, Architectural Interns, and Architectural Technologists to join a collaborative team delivering innovative design services across a diverse range of projects. Our work spans private, public, and non-profit sectors and includes multi-family residential, academic, cultural, institutional, and commercial projects. We are seeking detailed oriented, technically skilled individuals with a **minimum of 3 years of Canadian experience**. Candidates should be familiar with design-driven, detail-focused, and sustainable design principles, and have experience across all phases of the design process. Proficiency in AutoCAD is essential, with a strong understanding of design intent and constructability. Applicants must be registered or eligible for registration with the MAA. These positions are not entry-level.

ARCHITECTS

We are seeking a qualified Architect to join our team and contribute to the delivery of innovative architectural services across a diverse range of projects and design phases. This role is ideal for an architect who thrives in a collaborative environment while also being comfortable leading projects independently - from early design through construction administration. The position involves direct coordination with clients, consultants, and contractors, and offers the opportunity to play a key role throughout the entire project.

ARCHITECTURAL INTERNS

This position is well suited for an experienced architectural intern who is ready to take on meaningful responsibility and actively contribute to the design process. The role offers hands-on involvement in active projects, research, and experimentation, while encouraging curiosity and the challenging of conventional approaches. Strong design, technical, and problem-solving skills, along with close attention to detail, are essential.

ARCHITECTURAL TECHNOLOGISTS

This role requires a strong understanding of current building codes, construction detailing, and comprehensive drawing coordination. Candidates must demonstrate a thorough knowledge of the design and building process, as well as a proven ability to produce high-quality, accurate, and well-coordinated construction documents.

APPLICATION

Apply by submitting a CV and Portfolio in pdf format (max.10MB) to careers@acht.ca. Only those selected for an interview will be contacted.
