Our Firm
At pico ARCHITECTURE, we design spaces that nurture, heal, and inspire. Our award-winning firm is built on eco-conscious design principles and deep client engagement, ensuring every project reflects our commitment to both people and our environment.

What We're Looking For

We are seeking an architect registered in Manitoba who is well-skilled in the technical aspects of the profession and who takes pride in doing a good job.

Our team provides a strong foundation while also giving individuals the freedom to take ownership of their role and work independently. We're looking for an architect who shares our commitment to building spaces that nurture, heal, and inspire.

- At least five years architectural experience.
- Registered Architect with MAA, and LEED AP being an asset.

What You'll Do

- Design for long-term environmental and social impact.
- Consult directly with clients and invested groups to ensure their vision is heard, refined, and realized.
- Collaborate with team members to draw on each other's strengths.
- Develop and maintain project schedules, budgets, and resource allocation plans.
- Manage a team of consultants to ensure project timelines are met.
- Conduct site visits and oversee construction administration.

What We Value

- Strong sustainability expertise.
- Excellent communication skills—you know how to translate complex design concepts into clear, compelling ideas.
- Deep knowledge of building codes and regulations, particularly in Manitoba.
- A client-first mindset, ensuring that projects are both visionary and practical.
- Exceptional design planning.
- Proficiency in reading and interpreting contract documents, schematics, and various other construction documentation.

Why pico
We offer competitive salaries, health benefits, and a retirement savings plan. We also respect your personal time and offer flexibility to harmonize your career with what matters most to you.

Submit your CV in confidence to gail@picoarchitecture.com.

No phone calls, please. Only those selected for an interview will be contacted.
