We're HIRING! Join Our Growing Design Team.

JOB TITLE: Architectural Intern
LOCATION: Winnipeg, Manitoba
JOB TYPE: Permanent, Full-Time
SALARY: To be discussed based on experience

About the Role:
As an Architectural Intern, you will engage with the design team in all phases of the project, from client consultations and conceptual design through construction documentation and contract administration. There will be opportunities to work on a variety of projects paired with a senior member of the office team in areas including commercial, institutional and multi-tenant residential. We encourage the development practical skills and industry knowledge in a collaborative culture with the goal of developing leaders for future projects.

Responsibilities:
- Assist with design development, construction drawings and specifications
- Assist with contract administration
- Conduct site measurements and existing condition documentation
- Prepare presentation materials, renderings, and design boards
- Assist in material research, code review, and product selection
- Participate in design meetings and client presentations
- Support project coordination with consultants and team members

Qualifications:
- Master of architecture and an intern or registered member with a Canadian licencing body
- Minimum 3-5 years of Canadian architectural practice experience;
- Experience in 3D modelling and renderings
- Proficiency in Vectorworks and Revit is an asset
- Production of contract documents, including specifications
- Familiarity with the building code
- Experience in technical details
- Effective written and oral communication skills
- Ability to work independently and within a team environment
- Strong attention to detail and willingness to learn
- Must be located in Winnipeg

What we Offer:
- Mentorship from experienced architects and technologists
- Opportunity for professional growth
- Flexible Hours
- Competitive compensation and Profit-Sharing Plan
- Group Health and Dental Benefits Package
- Transportation Subsidy
- Team Building Events
- Continuing Education Opportunities
- We work to live.

About the Office:
Over the last 36 years, members of Northern Sky Architecture Inc. have built a reputation providing clients with positive and attentive service. We strive to create a collaborative culture and deliver designs that are innovative, respectful and responsive to the client, the community and the environment.

We have an office hierarchy that empowers staff members to work on a variety of project types. This capitalizes on the strengths of each individual, allowing for personal and professional growth within the project team.

If you would like to explore a position with our firm, please forward a resume in confidence to:
