Are you looking for an opportunity to:

- **Grow your leadership skills**
- **Guide a team of talented specialists**
- **Direct projects that impact our community?**

Do you want to be a part of a rewarding future and the opportunity to lead at ft3?

ft3 is a major interdisciplinary practice of architects, interior designers and landscape architects working together in pursuit of creating *meaningful places for people*. We are focused on and have a leading track record in our 3 major sectors of choice: Health & Wellness, Multi-Family Housing and Corporate Office. As a place of work, ft3 fosters a team mentality, offering incredible opportunities for meaningful contribution, creative challenges, and professional development. Our very skilled and experienced team of design professionals will help you develop and hone your expertise within a dynamic, stimulating, and supportive environment.

ft3 has an immediate need for a **Project Architect**. Reporting to the Principals, the Project Architect will be responsible for leading the design and managing the project team simultaneously on several projects consisting of the following:

MAIN RESPONSIBILITIES AND DUTIES

The successful candidate will:

- Oversee the design and project management of projects, including leading client and team project meetings, design charrettes / workshops.
- Collaborate with our integrated team of architects, landscape architects, interior designers, and technologists.
- Prioritize consistent communication and collaboration with clients and consultants throughout the project.

QUALIFICATIONS

To be considered, successful applicants will require the following:

- Registration with the Manitoba Association of Architects and minimum three (3) years of professional experience.
- Practical and working knowledge of construction practices and regulations.
- Demonstrate design and technical proficiency, with the ability to communicate conceptual designs effectively through graphic and verbal presentations.
- Ability to produce construction documents alongside our integrated team with a working knowledge of technical details, National Building Code, and zoning by-laws.
- Strong coordination and organizational skills, with a high level of attention to detail and accuracy.
- Determination to set and manage priorities to meet all deadlines.
- Knowledgeable / accredited in sustainability practices and certifications (e.g. LEED, Passive House).
- A working knowledge of Revit.

WHAT WE OFFER

- Competitive salary
- A great working team environment
- Meaningful project work
- Multidisciplinary mentorship
- A rewarding career with opportunity for growth at ft3.

We thank all applicants for their interest, however only those selected for an interview will be contacted.

To apply, submit CV and portfolio to HR@ft3.ca.
