

INTERMEDIATE ARCHITECT

Verne Reimer Architecture (VRA) pursues and delivers projects that are intelligent, innovative, and meaningful. We create buildings and public spaces that provide functional and comfortable places that aim to inspire and delight. We are dedicated to creating timeless and robust buildings marked by resolving specific requirements with the proper technical considerations. We seek to extract extraordinary and elegant results from both ordinary and unique programs, unusual sites, and modest construction budgets. Our projects are designed to be place-makers and transformational in nature. All our projects integrate sustainability and accessibility as a primary consideration, while providing inspired solutions for our client's needs and aspirations. Our studio focuses on a collaborative and integrated process.

We are fortunate to currently having commissions for many very intriguing and diversified projects, which are in the conceptual and design development stages and include both the Public and Private realms.

We are a young firm, but we are led by experienced and award-winning architects. We offer an exciting office environment, a fitness centre, a club room, as well as a comprehensive benefits package, including annual bonuses. Compensation is based upon experience and expertise. We invite you visit us in person or visit our web page at <http://www.vernereimer.com/>

We're looking for an ambitious and skilled Intermediate Architect to join our talented team. The position involves working closely with a Principal or Associate on projects throughout the project process. Candidates must have an accredited M.Arch. MAA registration will be required.

Primary responsibilities:

- Actively participate in the design generation, design development and technical development / documentation of projects through all phases.
- Consultant communication and coordination.
- Preparation and participation of client meetings (drawings, digital models, renderings, minutes, and correspondence, etc.).
- Product and material research and vetting.

The ideal candidate has:

- More than 4 years of post-graduate architectural office experience.
- Excellent verbal, written and graphic communication skills.
- Exceptional attention to detail and demonstrates a high standard for the quality of their work.
- Ability to work effectively as part of a team, as well as independently with minimal supervision.
- Experience and proficiency in LEED AP, Lean and Revit is also preferred.

If you are interested and have the positive attributes and keen attitude that we're looking for, we would be very interested in meeting with you to discuss this significant opportunity
