Architectural Intern Position

2 Architecture is a young architectural firm, engaged in a diverse range of residential and commercial projects throughout Canada. We believe in the value of constraint, the significance of proper execution and the importance of collaboration over design dictation. Our portfolio focuses on a wide range of mid-scale multi-residential, retail/ office and hospitality projects.

2 Architecture is seeking an ambitious, enthusiastic and detail-oriented Architectural Intern. Candidate must have excellent communications skills, be fluent in AutoCAD 2016 and Microsoft Office applications as well as have a working knowledge of Adobe Creative Suite. 3D Modeling would be advantageous.

Candidate must have a minimum 2 years' experience in architectural design; with exceptional skills in the production and coordination of contract documents. Interested Individuals must also have a working knowledge of building systems and detailing, with the ability to work independently, developing and coordinating contract documents and document checking.

To apply please email your resume and a small sample of your work (pdf, 5 mb max file size) to gilmour2architecture@gmail.com and indicate in the subject line the position of interest.

Only candidates selected for interviews will be contacted, however all resumes will be kept on file for six months.
