

INTERMEDIATE LICENSED ARCHITECT

Ayshkum Engineering Inc.

We are an Aboriginal owned and operated firm dedicated to improving the quality of life through professional consulting architectural and civil engineering services. During the past twenty years, we have had the honour of performing feasibility studies, building programming, design, construction management, and project management services for civil infrastructure works, and a variety of municipal, commercial, and residential building types. Our projects frequently evolve with our clients as we collaborate to bring solutions to their challenges. Our many repeat clients confirm their satisfaction with our services.

Intermediate Licensed Architect

We have an immediate opening for a candidate to assist us in making a real difference for the land, the people, and the communities of First Nations.

We are looking for an individual who is a critical thinker, passionate about improving society and assisting our professionals to deliver quality, sustainable and socially responsible design solutions.

You will increase our capacity to serve our clients in the production of construction documents and contract administration services. We are looking for a self-directed (find a way to get it done), self-motivated (passionate about proficiency), team oriented (flexibly minded), and proven producer. Focus, organization, and balance are key to your success.

Requirements include:

- Member of the Manitoba Association of Architects.
- Demonstrated understanding of: the process of zoning ordinances and municipal approvals, building materials and assemblies, preparation of construction drawings and specifications; the application of the National Building Code for Manitoba, construction observation activities and processing documentation related to contract administration.
- Hands-on proficiency in Revit, AutoCad, or Vectorworks, and MS Office software.
- Strong skills in speaking and writing English.
- Valid Manitoba driver's license and personal vehicle.

Your resume will demonstrate a minimum of five years previous professional experience in North America by describing your responsibilities in previous projects.

We offer a relaxed working environment punctuated with occasional frenetic moments of activity and opportunities to travel to our clients throughout the North.

Ayshkum is an equal opportunity employer that supports personal and professional development and offers a comprehensive competitive compensation package for full time employees.

Please forward a cover letter to office@ayshkum.ca that convinces us to hire you and a resume to prove it. We promise to read all submittals from candidates and contact suitable candidates for an interview.
