

## Junior Architect + Architectural Intern

### Why Northern Sky Architecture Inc.?

Northern Sky Architecture Inc. is comprised of a group of highly self-motivated individuals with a bent toward logistically challenging projects for a diverse group of clients. While we do not live to work and enjoy life outside the office, we take great pride in developing Client relationships and being able to deliver quality solutions that exceed their expectations. We embrace that each individual's desire for personal and professional growth must be supported and encouraged within the firm.

### Position Description:

We are seeking a self motivated Junior Architect and an Architectural Intern to complement our team. You work effectively both independently and as part of a team in a highly collaborative office in a variety of roles and responsibilities. Responsibilities will typically include:

- Participation in preparing documentation at various stages of a project, from conceptual design to Construction Documents to Occupancy Applications;
- Production of design development concept packages;
- Travel to sites to perform site condition reconnaissance or Field Reviews;
- Conducting evaluations and documentation of existing buildings; and
- Production of comprehensive building reports.

### The ideal candidate will possess:

- Minimum 3 years of relevant experience.
- Demonstrated organizational and time management skills.
- Communication skills including verbal, written and graphic presentations.
- Working knowledge of National and Manitoba Building Codes.
- Telekinesis and the ability to herd cats.
- Effective CADD skills - proficiency with Revit and Vectorworks an asset.
- Recent MAA member or registered intern.
- 5 handicap golfer – we have a title to defend.

Applicants should email [contact@nsai.ca](mailto:contact@nsai.ca) with their resume and a representative sampling of their work. We thank all applicants for their interest, but only candidates selected for an interview will be contacted.
