

Junior Architect

SA Sternberg Architecture is seeking a Junior Architect with 2–4 years of professional experience to join our practice. This role is ideal for a technically strong, design-conscious professional ready to take on increased responsibility and contribute meaningfully to project delivery.

About the Role

The Junior Architect will work closely with project leads and senior architects, contributing across all phases of projects. The position involves greater autonomy, technical responsibility, and coordination compared to the intern role.

1. Key Responsibilities

- Assist with design development and production of construction documents
- Coordinate with consultants, including civil, structural, mechanical, and electrical engineering
- Participate in contract administration and site observations
- Contribute to design discussions and collaborative problem-solving
- Support senior architects in project delivery and studio initiatives

2. Qualifications

- Professional degree in Architecture
- Registered, or eligible for registration with the MAA
- 2 – 4 years of experience in an architectural practice.
- Ability to manage tasks independently while working collaborative
- Excellent communication skills, both verbal and written
- Knowledge of the National Building Code and Manitoba Building Code
- Proficiency in AutoCAD, Revit, Acrobat Creative Suite and MS Office.
- 3D and rendering skills.

3. What we offer

- Increased responsibility and project exposure
- Collaborative and respectful work environment
- Opportunities to grow professionally within a small, growing firm
- Competitive salary and benefits package

4. How to Apply

Please submit your CV, portfolio, and a brief cover letter highlighting your experience and qualifications to: jsternberg@sternbergarchitecture.com. Closing date March 31, 2026.

We thank all candidates in advance for their submissions. Only candidates selected for interviews will be contacted, however all resumes will be kept on file for six months.
