ARE YOU A PROJECT ARCHITECT WITH PROJECT MANAGEMENT EXPERIENCE? MMP ARCHITECTS WOULD LIKE TO HEAR FROM YOU.

MMP Architects is experiencing overwhelming demand for design services, and we have an important, immediate position to fill for an experienced and versatile Project Architect.

YOU

As Intermediate Project Architect, you'll be directly involved in the production and oversight of design projects from start-up to completion, on a variety of building types, and provide valuable organizational and technical guidance to your team. You are comfortable working directly with outside suppliers, consultants, contractors, and clients in the pursuit of successful project outcomes.

US

You'll be empowered and supported by a talented staff of designers, technical staff, and administration to help keep things running smoothly in this deadline-driven office. In exchange, you'll be paid well (including medical benefits and RRSP matching), and you'll go home at a reasonable hour – all while making meaningful contributions to the built environment of our shared community.

Over the past 85 years, MMP has earned a well-deserved reputation for being a fast-paced, fun, and friendly office. Our portfolio is diverse and includes Healthcare, Multi Family, Commercial, and high-rise construction with over a dozen major active projects at any given time. While we work very hard, we also include weekly happy hours and enjoy annual summer and winter retreats (pandemic notwithstanding). Our newly renovated office in the Exchange District features a gym, shower amenities, secure bicycle lock-up and nearby parking. We offer opportunities for continuing education and training in a collaborative office that is committed to making positive change.

THE ASK

We're looking for a self-motivated, technically-proficient and skilled architect with a minimum of 5 years experience in commercial projects. Attention to detail and the ability to clearly communicate with a larger design team are critical. Relevant knowledge of current MB Building Code, Energy Code, ACAD and Revit skills are required. Must be currently registered or eligible for registration with the Manitoba Association of Architects.

If this sounds interesting, we want to hear from you! Send a cover letter, CV, and brief work sample to careers@mmparchitects.com (subject line: **project architect**).

** MMP Architects is committed to being an inclusive, equitable employer. Only those currently residing in and eligible to work in Canada will be considered for this position. Only those candidates selected for interview will be contacted.*
